Researchfish... what we want to know

This is a guide for all common outcome questions in Researchfish related to BHF awards. We are very grateful for your time and effort in updating Researchfish and have put together this BHF guide in addition to the universal guidance supplied by Researchfish. Please contact researchevaluation@bhf.org.uk for further information.

Publications
- Publications that have arisen from work funded by your BHF award.
- Journal articles (research papers), reviews, editorials, conference proceedings (abstracts), books (or individual chapters) and policy briefing documents.

Collaborations & Partnerships
- Collaborations that have arisen or have been strengthened by research funded by your BHF award.
- All collaborations including those within academia, industry (private sector) or non-academic healthcare professionals (hospitals).

Further Funding
- Any funding secured as a result of research funded by your BHF award.
- Please include further funding obtained from all funders including further grant income obtained from the BHF.

Next Destination & Skills
- Next destination of individuals supported by the BHF award.
- We would especially like to monitor the next step for students and those in junior roles.

Engagement Activities
- Any activity communicating or promoting BHF funded research.
- All public engagement activities such as institutional open days, talks at schools, participation in fundraising events, science festivals, blogging or any contact with the media.
- Include keynote speeches in Awards & Recognition.
**Influence on Policy, Practice, Patients and the Public**
- Details of any **significant influence** on policy or practice that was realised as a result of BHF funding.
- Examples of where BHF funded research has influenced the training of practitioners/researchers, been cited in clinical guidelines/systematic reviews/other policy documents, or participation in a consultation or on an advisory committee.

**Research Tools & Methods**
- The creation, development or refinement of **research tools or methods**.
- Please provide details of **cell lines, disease models, research assays or methods** that you have created/refined, and give details on whether they have been made available for other research groups.
- Include **in silico** resources in Databases and Models and resources for clinical use in Medical Products, Interventions & Clinical Trials.

**Research Databases & Models**
- Development or refinement of **in silico** research databases and models.
- Please provide details of the creation/refinement of any **data analysis technique, computer model/algorithm, data handling technique** or the development of databases.
- Include resources for clinical use in Medical Products, Interventions & Clinical Trials.

**Intellectual Property & Licensing**
- **Intellectual property** that has resulted from research funded by your BHF award.
- Intellectual property protected by **patent** (under revision or granted), **copyright**, **trademark**, or where applicable, **protection not required**.

**Medical Products, Interventions & Clinical Trials**
- Include **medical products and interventions** developed as a result of research funded by the BHF; **clinical trials** of a **novel medical product/intervention** that you have developed; **clinical trials/studies** of a **drug repurposed** for a new indication.
- Please provide details of **imaging tools, diagnostic tools, drugs, cellular/gene therapy** and medical devices.
### Artistic & Creative Products
- Any **artistic** or **creative output** that is related to BHF funded research.
- Artefacts, images, artwork, composition/score, creative writing and film/video/animation.

### Software & Technical Products
- Please ignore this section unless your output does not fit within the remit of Research Databases & Models or Medical Products, Interventions & Clinical Trials.

### Spin Outs
- The creation of any **spin out companies** or **ventures**.
- Please provide an overview of company structure, type and level of investment leveraged and key milestones of progression. **Exclude private sector collaborations (Collaborations & Partnerships)**

### Awards & Recognition
- The receipt of a **prize**, **award** or **other form of recognition** usually from peers or prestigious organisations.
- Include a keynote speech, a prize/award/honour, membership or fellowship of a learned society, an appointment to an honorary/advisory position on an external body or editorial board.

### Other Outputs & Knowledge/Future Steps
- Please ignore this section unless your output does not fit within the remit of the other 15 questions.

### Use of Facilities & Resources
- The use of national or international research resources.
- Include **national** tissue/DNA banks, patient cohorts, **national** facilities such as high throughput sequencing hubs or proteomics services. **Exclude university facilities used in daily laboratory activities**

---

**Thank you!**
